Chromium Trioxide Update – Harmon Group

Harmon Group are pleased to announce that we have now joined a consortium which will allow Harmon to use Chromium Trioxide beyond the current sunset date of September 2024.

This will allow Harmon to continue supplying the following surface processes within our facility:

Treatments:

- Chromic Acid Anodise (Chromium Trioxide)
- Stainless Steel Passivation (Sodium Dichromate)
- Chromate Conversion (Sodium Dichromate)
- Dichromate Seal (Sodium Dichromate)
- Paint (Strontium Chromate)
- Passivation of (non-Al) metallic coatings (Sodium Dichromate)

We will keep you updated with further developments, as and when they happen.

In the meantime. If you have any questions, please don't hesitate to contact either myself or Carl Bodman –
Treatments Manager – carlb@harmon.co.uk.

Kind regards

Ian Harmon

Director
